

**Horse Health Products announces the return of the Winter Hay Giveaway.**

In lieu of a serious injury or illness, feed makes up the majority of the annual cost of maintaining a horse. Since hay makes up the bulk of the diet for most horses and is fed at least part of the year, if not year round, it can get expensive. But worry not, Horse Health Products wants to help! The grand prize winner will receive up to \$5,000 worth of hay,\* and new this year, an additional four lucky winners will receive cash towards hay!\* Another five lucky winners will receive \$250 worth of Horse Health™ products for their horses. See Official Rules for details at [www.HorseHealthProducts.com](http://www.HorseHealthProducts.com)

“Previous Winter Hay Giveaway winners were so thrilled to save the money they normally spent on hay purchases that we decided to continue to help more horse owners and their horses by offering more prizes and more chances to win,” said Alyssa Barngrover, marketing manager, Horse Health Products. “Hay is one of the most essential needs for horses, with the average 1,000-pound horse consuming 10 to 20 pounds of hay each day depending on its use and management. As owners of multiple horses, hay represented a major expense for these previous winners.”
